TO: Alan Altur, U.S. EPA
FROM: Dan Sullivan, FIT DS
DATE: September 6, 1990
SUBJECT: Bemis Company, Inc.
Peoria, Illinois
ILD006215727/P05-8812-011/FIL0585SA

The transmittal memorandum which accompanied the screening site inspection report for the Bemis site suggested the site be designated as a NFRAP facility. This decision was based on the unlikelihood of the site affecting drinking water supplies in the site area. However, due to high levels of contaminants detected in on-site surface soil samples, FIT has revised the recommendations and has recommended the site be designated a potential LSI candidate.
